

Press release.

OceanBluu OneGivesOne Project June 2019 Giveaway in Kolkata in cooperation with HOPE foundation.

25th April 2018, founded by parents Roi Elco and Cynthia Kirstone, OceanBluu has fast become a leader in eco-friendly and organic cotton bedding and sleepwear for children. Born out of frustration for the lack of high-quality, fun and Fairtrade certified bedding for children available on the market, Roi and Cynthia set to work on developing the worlds softest and most fun bed sheets and pyjamas whilst using the highest quality and only eco-friendly materials.

At the heart of OceanBluu is their OneGivesOne Project which strives to provide *Good Night's Sleep for Everyone!* OceanBluu offers their customers a unique opportunity to shop responsibly and compassionately. Each time a customer purchases an OceanBluu product one essential item is given to a child in need with careful assessment of the community needs. One for One.

On the 13.06.19 OceanBluu will hold a Giveaway together with HOPE foundation to aid children in need in Kolkata.

OceanBluu always promotes local businesses thus all our items are manufactured locally and ethically with the goal of providing jobs to the communities and promoting local economy stability.

With the love and support of OceanBluu customers around the world and by cooperating with RCM (Raj Lakshmi Cotton Mills) we are able to give 2,300 essential items like underwear and pyjamas to the less fortunate and encourage customers around the world to shop responsibly.

Join us to support OceanBluu mission and local businesses for a better future!
